

## PROJECT MANAGEMENT PROFESSIONAL (PMP®)

SMG's Project Management Professional (PMP®) program is endorsed under the Enhanced Critical Infocomm Technology Resource Programme (CITREP).

The Project Management Professional (PMP®) was initiated in 1984 to recognize an individual's demonstrated understanding of the knowledge and skills to lead and direct project teams and to deliver results within the triple constraints of schedule, budget, and resources. Participants who successfully complete the program are eligible to be awarded **Professional Development Units (PDUs)** under PMI®. SMG is a **Registered Education Provider (R.E.P.)** and **Global Charter Member** of **Project Management Institute (PMI®)**. Participants will receive a PMI® certificate from SMG.

The training methodology involves lectures, clinics, discussions, activities, experiencing the application of these concepts in the **computer based simulation** and then applying it to their own plans, i.e, real world application. The program will cover the 9 Knowledge Areas covered under the **Project Management Body of Knowledge (PMBOK® Guide)**.

### TOOLS AND TECHNIQUES

This workshop provides participants with a toolkit which focuses on the **Project Management Body of Knowledge (PMBOK® Guide)**. They will learn new strategies and tactics on how to improve their productivity and achieve on-time/on-budget results by anticipating problems and reducing risks. This workshop will focus on the entire project life cycle of Initiating, Planning, Executing, Controlling and Closing, as specified by the Project Management Institute (PMI®) which will be aligned to the systems development life cycle. The participants will also have a chance to practice taking a mock PMI® Exam.

### PROJECT LEADERSHIP

This workshop teaches participants the behavioral skills necessary to improve their ability to lead their project teams more effectively. Participants will also be presented with a project leadership issue in the form of video-based case studies. A computer based simulation will be used which allows participants to play the role of a project manager in an organization that has to produce a high-tech deliverable.

*\* The Enhanced CITREP supports up to 80% of the nett payable course and exam fees, capped at \$3,000 per trainee. The Sponsoring Organization is eligible for Absentee Payroll support at \$50 per trainee per day, when they sponsor their staff for full-time training. Terms & conditions apply. Visit [www.ida.gov.sg/CITREP](http://www.ida.gov.sg/CITREP) for full details.*
